1 World population by continent in 2007

1.1 Table

Table 1 reports population data by continent in 2007 as a percentage of world population.

Table 1: World population by continent, year 2007. Source: Gapminder.

Country	Population (in %)
Africa	14.87
Americas	14.38
Asia	60.98
Europe	9.38
Oceania	0.39

1.2 Pie chart

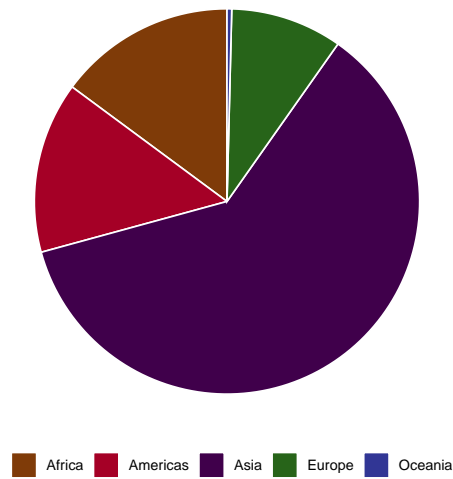

Figure 1: World population by continent, year 2007. Source: Gapminder.

From Figure 1 we can see that Asia is the most populous continent. In 2007, the percentage of the population of the Asian continent represents 60.98% of the world's population.
